SOUTH SHORE BLUEWAY

Nassau County, Village of Freeport, Town of Hempstead and Town of Oyster Bay

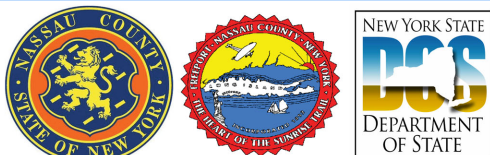

are planning a water trail for human-powered boaters encompassing the western bays of the South Shore Estuary Reserve. A community-wide planning process developed the South Shore Blueway Trail Plan, which establishes access points and identifies gaps and new sites needed to complete the trail.

The blueway will provide residents and visitors an opportunity to enjoy scenic views, wildlife, cultural history and great new recreational opportunities.

For more information, visit southshoreblueway.com.

The Western Portion of the South Shore Estuary Reserve

The South Shore Blueway Trail is made possible by the Village of Freeport, a Local Waterfront Revitalization Grant from the New York State Department of State under title 11 of the Environmental Protection Fund and the Nassau County Environmental Bond Act.
